## School Self Evaluation

School Self Evaluation (SSE) is a process that schools nationally are engaged in. It is a 'collaborative, inclusive and reflective process of internal school review'. (D.E) This process involves gathering information from a range of sources about the quality of teaching and learning in our school, and then making evidence based judgements. It culminates in the development of the School Improvement Plan which sets targets for improvement in particular areas.

In summary, SSE enables us to look at what we as a school are **doing well**, identify **areas for improvement**, **set targets** for improvement and **monitor and evaluate** how successfully we achieve our targets.
